I am in full support of the Homeowner Assistance Fund Plan. There were so many resources to help people that were delinquent on their rent but there was no assistance or no plan to help these home owners come out of this.

I have a Private Group called the Home Buyers Clubhouse and that was an ongoing topic for us... How are we going to help these homeowners find a way out of this?.. I am in full support and I am really grateful for the support of the NCHFA.
