Subject: Input on Proposed Homeowner Assistance Fund Plan

Hello,

As a Hispanic American who never has taken public assistance and worked since age 16 this pandemic has impacted me greatly. I had to take unemployment assistance and fell behind on my mortgage because I lost my job early last year.

My credit score went from 778 to now 563. The deferment on my mortgage is up this month and while I'm happy to have a job again it's for \$40,000 less a year and my ex husband is not paying me child support to boot. Now \$27,000 is getting put back into my mortgage of course for last years lack of payment. I implore all of you to make these funds available quickly. So many of us are at severe risk of losing our homes.

So many of us have to resume mortgage payments July 1. I'm hoping I can make the payments. It would be such a relief, such help to get that \$27,000 paid off by the HAF. I'm still behind with my bills and don't want to lose my house. I live in Wake County NC.

Thanks,
Lydia Materno
