I think this is great for NC, so many struggling after the Pandemic and still dealing with Hurricane Florence, Irene Matthew and Dorian. The largest issue will be getting the communication out to those that are in need. Partnering with local nonprofits and local governments. Making it where there is accountability but not so much bureaucracy that it turns persons away from the very process that can help them. Most programs don't offer mortgage assistance since the housing meltdown in 2008, so this is going to again be a blessing, help to so many. A grassroots strategic plan is necessary to get the communication out.

Thanks for the opportunity to share comments and thanks for leading the way for housing affordability in NC.
